

## 10. GET THE MOST OUT OF YOUR INVESTMENT

We have field representatives ready to answer your questions and give you support to help you get the most from using Growers Mineral Solutions. In addition, our Research Department keeps up with the latest trends and opportunities in agriculture.

## 11. USE ONLY WHAT IS NEEDED

The nutrition available in the soil, air, and water is responsible for most of what crops need. During periods of high stress because of weather or normal plant growth stress, extra added nutrition may be a big benefit to your operation. You decide what is needed and when, with little or no loss to the environment.

## 12. LOCAL SERVICE & SUPPORT

From our production facility, laboratory, and offices in Ohio, we support a network of highly qualified, knowledgeable, and experienced staff and sales representatives throughout our sales area. They work hard to help you get the most out of your investment.

## GROWERS TARGET FERTILITY

*“The placement of elements close to the plant to take advantage of the efficiencies of reduced time and distance.”*

### THE 3 MAIN POINTS OF THE PROGRAM

1. Provide a good growing medium by ensuring adequate calcium in the soil.
2. Supply necessary nutrients to the plant by applying balanced high quality soluble plant nutrients at the correct time.
3. Put in comparison plots and yield check to verify profitable results.

# GROWERS MINERAL

THE FARMERS SOLUTION

# 12 Benefits of Growers Mineral Solutions

## 1. EASY TO HANDLE

Because it is a liquid mineral solution, Growers Mineral Solutions is easy to handle and work with. There are no bags, powders, mixing, or hassles. It's ready to use!

## 2. SAFE TO USE

Our high quality solution is safe to use around animals, children, family, and friends.

## 3. CAN BE APPLIED DIRECTLY

Because Growers Mineral Solutions is made of high quality food grade raw materials, it can be applied directly to crops as well as animal rations and is registered as a phosphorus feed supplement in the United States and Canada.

## 4. EASY ON EQUIPMENT

Because Growers Mineral Solutions is less corrosive and has a lower freezing point, it is easier on your equipment and will help it last longer.

## 5. STAYS IN SOLUTION

We have bottles of Growers Mineral Solution that are over 20 years old, and they have not gone out of solution.

Growers Mineral Solutions has nutrient consistency and uniformity. This ensures that what you buy today can be used whenever you need it. Growers Mineral Solutions helps you get the most out of your investment!

## 6. LOTS OF AVAILABLE NUTRITION

Because of the high mineral content of Growers Mineral Solutions, you get a high return on your investment due to raw material contents which are pure and balanced.

## 7. YOU CONTROL THE TIMING

Because it is a high quality liquid solution that can be applied and utilized by your crops, you can manage how much and when to apply Growers Mineral Solutions. This gives you much more management control on your crops, especially during periods of high stress (caused by weather or normal plant growth).

## 8. MAJORITY UTILIZED BY CROPS

Because Growers Mineral Solutions is applied directly to the plant and is compatible with plant tissue, the majority that is applied to the plant is utilized by the plant. Very little is wasted, which is good for the environment and your profit. GMS is truly 4R compatible.

## 9. READY FOR YOU TO USE

We deliver directly to your farm ready to use. The price you pay is for the balanced Growers Mineral Solution in your tank and ready to use. There is no extra charge for "additional" micro-nutrients.
